

DUPLI-COLOR MILKY GLASS

Technical Information

DUPLI-COLOR MILKY GLASS gives a look like iced resp, "milky" glass to transparent objects, e.g. glass, windows, vases, mirrors, paintable plastics.

The spray has best effect on transparent surfaces. The object remains translucent. Whether the surface is entirely or only partially coated – the individual touch can be varied by the number of applied layers.

Ord.-no: 263231

Quality & properties

- High-grade acrylic lacquer
- Quick-drying
- Very efficient
- Transparent (translucent) mat
- After drying (24 hours) heat-resistant up to 90°C
- The painting is insensitive to water and window cleansing agents
- Can be removed easily with alcohol or solvent

It is possible to take off the paint from even surfaces with a plastic scraper

Physical & chemical data

- Base: Acrylic resin
- Colourname: white transparent
- Smell: Characteristic
- Efficiency: 150 ML – 1 - 2 m²
- Dust dry: 5 min
- Dry to touch: 30 min
- Completely dry: 24 h
- Surfaces: glass, windows, vases, mirrors, paintable plastics
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Flash point: n.a.
- Storage stability: 10 years
- Content: 150 ML

How to use

- The surface must be clean, absolutely fat-free and dry.
- Cover the surfaces not to be painted.
- Use DUPLI-COLOR Plastic Primer on plastic parts.
- Shake can for 3 minutes, test spray.
- The optimal distance is approx. 25 cm.
- Spray several thin coats.
- Do not spray on surfaces lacquered with synthetic paint!
- To improve scratch-resistance it is possible to apply a coat of DUPLI-COLOR Zapon Spray. Please consider, that by this the effect becomes more translucent!

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

As of July 10, 2025 – This release replaces all eventually earlier issued versions.
